

WMC Wall mounting clamp

This type of mounting equipment allows a BPHE to be mounted on a wall, plate, etc. Wall mounting equipment is not affected by the plate pack (PP). Important: dimensions A and B are different from the BPHE's size (see table below).

SWEP accessories meet the same high standards as the company's BPHEs. They are produced according to SWEP's specification by rigorously selected suppliers. The high-quality materials are carefully chosen for compatibility, while the accurate dimensions save you time and money on installation. With SWEP accessories you have the assurance that everything will fit and perform the way the design engineers intended.
